

Study and Analysis of Qur'anic Sciences in the Exegesis of Manhaj al-Sadiqin

Abstract

Understanding the Word of God from the beginning of revelation, puts together believers (mu'mininun) to the Quran and this unparalleled manna. findings and Qur'anic knowledge, as the exegesis of Qur'an, have Gradually gained a high position among the written human legacy, either narrative or Ijtihadi. the need for the rules and principles of understanding the Quran took independent form as an impartible preface of the exegesis. Quranic researchers have considered some of these principles as Quranic sciences in the preface of the commentaries. And one of the ways of understanding the exegetical viewpoints of the exegetes depends on their understanding of the Quranic sciences. in fact, Quranic sciences is the key to understanding the Qur'an. Exegesis of Manhaj al-sadiqin fi ilzam al-mukhalifin is the persian-language exegesis from one of the well-known Emamieh ulama and origin of persian-language commentaries for modern Persian -language exegetes in the Safavid era. The subject of this research is to find the position of the Quranic sciences in this exegesis. The basic questions in this research are that How much Mulla Fath Allah Kashani has gained from the Qur'anic sciences in shaping his exegesis and in which part of the Quranic sciences he has paid more attention. This research is based on descriptive method and the required data is collected by library method.

In conclusion, exegete of Manhaj Al-Sadiqin has paid special attention to the difference in Qira' at and ultimately accepted the Qira' at Sab'ah. And on the topic of abrogation, the principle is based on the lack of abrogation, and he believes in Degrees of revelation. he has paid attention to descent reasons In the comprehension of verses. and he emphasizes the miracle of the Qur'an, especially the literal miracle of the Qur'an.

Keywords : Qur'anic Sciences, Exegesis, Manhaj al-Sadiqin, Mulla Fath Allah kashani.
