

## CURRICULUM VITAE

---

### Rouhollah Farghadan

**Academic position:** Associate Professor

Department of Physics, University of  
Kashan, Iran

### **Education:**

❖ Tarbiat Modares University, Tehran, Iran. Sep. 2007- Feb 2012.

**Thesis title:** Spin-dependent electrical transport in armchair graphene nanoribbons and carbon nanotubes

❖ Tarbiat Modares University, Tehran, Iran. Sep. 2004-May 2007.

**Thesis title:** Construction and Study structural magnetic behavior of I.M.C.  $R_xPt_y$

❖ Department of Physics, Shiraz University, Shiraz, Iran. Sep. 2000 - June 2004

### **Research Interests:**

Spin electronics

Optical and Thermal properties of nanostructures

Computational Modeling of Nano-Structures

### **Course taught:**

Computer Application in Physics, Solid State Physics I, Solid State Physics II, Advanced Solid State Physics I, Advanced Solid State Physics II, Condensed Matter I, Condensed Matter II, Density Functional Theory (DFT), Special Topics in Solid State Physic

**Email:** rfarghadan@kashanu.ac.ir

**Web Page:** <https://faculty.kashanu.ac.ir/rfarghadan/en>

#### **Conferences (Published in Proceedings):**

- 1- S. Zamani, **R. Farghadan**, "Detectors for visible and UV applications based on graphene nanowiggles", 5th International Conference on Nanostructures, Sharif University of Technology, Feb 2018.
- 2- S. Zamani, **R. Farghadan**, "Simulation of photocurrent in zigzag silicene nanoribbon", 3rd Iraninan Computational physics Conference, Shahid Beheshti University, 31 Jan-1Feb 2018.
- 3- F. Mazhari Mousavi, **R. Farghadan**, "Indirect Exchange Interaction and Spin-Orbit Coupling in Silicene Nanoflakes", 3rd Iraninan Computational physics Conference, Shahid Beheshti University, 31 Jan-1Feb 2018.
- 4- F. Rezaei Neisiani, **R. Farghadan**, "Enhanced half-metallicity in zigzag phosphorene nanoribbons", Annual Physics Conference of Iran Yazd University, 28-31 August 2017.
- 5- F. Mazhari Mousavi, **R. Farghadan**, "Zigzag silicene nanoribbons in the present of magnetic impurity", Annual Physics Conference of Iran Yazd University, 28-31 August 2017.
- 6- F. Rezaei, **R. Farghadan**, "Electron-electron interaction in hexagonal silicene nanoflakes", 13 th Condensed Matter Conference of the Iranian Physical Society, Shahid Rajaei Teacher Training University, 13 and 14 February 2016.

- 7- F. Masoudinia, **R. Farghadan**, "The influence of structural defects on the thermal properties of graphene nanoribbon", 13 th Condensed Matter Conference of the Iranian Physical Society, Shahid Rajaei Teacher Training University, 13 and 14 February 2016.
- 8- F. Mazhari Mousavi, **R. Farghadan**, "Zigzag silicene nanoribbons in the presence of external magnetic and electric fields", 13 th Condensed Matter Conference of the Iranian Physical Society, Shahid Rajaei Teacher Training University, 13 and 14 February 2016.
- 9- F. Masoudinia, **R. Farghadan**, "Vacancy effects on transport properties of graphene nanoribbons", Annual physics Conference of Iran, Shiraz University, 22-25 August 2016.
- 10- A. Sehat, **R. Farghadan**, A. Majid., "Rashba spin-orbit effect on spin polarized-current three terminal transistors", 12th Condensed Matter Conference of the Iranian Physical Society, Isfahan University of Technology, 8 and 9 February 2015.
- 11- M. Farrekiyan, **R. Farghadan**, "Field effects on electronic properties of hexagonal graphene quantum dots", 12th Condensed Matter Conference of the Iranian Physical Society, Isfahan University of Technology, 8 and 9 February 2015.
- 12- M. Moghadasi, **R. Farghadan**, Soltani, Omid, "Magnetic and electronic properties in strained graphene quantum disks", 12th Condensed Matter Conference of the Iranian Physical Society, Isfahan University of Technology, 8 and 9 February 2015.
- 13- M. Yoosefi, **R. Farghadan**, "Localized magnetization in free Carbon Chains", 12th Condensed Matter Conference of the Iranian Physical Society, Isfahan University of Technology, 8 and 9 February 2015.
- 14- M. Farrekiyan, **R. Farghadan**, "Electrical-field-induced spin depolarization in hexagonal graphene quantum ring", Second National-Electronic Conference on Physics Applications, Jahrom University, Feb 2014.
- 15- O. Soltani, **R. Farghadan**, "investigated electronic structure silicene flake in the presence of vacancy", DFT Workshop, Shahid Rajaei Teacher Training University, Feb 2014.
- 16- **R. Farghadan**, "electric- field controlled spin polarization in triangular graphene quantum ring", 5th International Conference on Nanostructures, Sharif University of Technology, March 2014.
- 17- **R. Farghadan**, E. SaievarIranizad., "Spin filter device in zigzag edge graphene nanoribbons", The 17th Meeting on Condensed Matter Physics, IASBS, Zanjan, Iran (2011).

- 18-**R. Farghadan**, A. Saffarzadeh, E. SaievarIranizad., "The effect of magnetic behavior of vacancy defect on the conductance of carbon nanotubes", 3<sup>rd</sup> Conference on Nanostructures, Kish Island, Iran (2010).
- 19-**R. Farghadan**, A. Saffarzadeh, E. SaievarIranizad., "Spin transport through a triangular graphene flake", J. Phys. Conf. Ser 248-012014 (2010).
- 20-**R. Farghadan**, A. Saffarzadeh., "Giant magnetoresistance in graphene nanodisk with ferromagnetic contacts", Iranian Annual Conference of Physics, Hamedan, Iran (2010).
- 21-**R. Farghadan**, A. Saffarzadeh, E. Saievar Iranizad., "Spin-polarized currents in graphene nanodisks", Iranian Annual Conference of Physics, Isfahan Technical University, Isfahan, Iran (2009).
- 22-**R. Farghadan**, A. Saffarzadeh, and E. Saievar Iranizad., "The effect of Stone-Wales and vacancy defects on the conductance of carbon nanotubes", Iranian Annual Conference of Physics, Isfahan Technical University, Iran (2009).
- 23-**R. Farghadan**, A. Yazdani., "Electronic structure of the Intermetallic compounds Gd<sub>3</sub>Pt, Gd<sub>2</sub>Pt and estimate the Curie temperature for Gd<sub>3</sub>Pt", 8th symposium of condense matter, Ferdowsi University, Mashhad, Iran (2007).
- 24-A. Yazdani, **R. Farghadan**, "Crystal and spin lattice relaxation in Gd-IMC", International conference on magnetism (ICM), Japan (2006).
- 25-**R. Farghadan**, A. Yazdani., "Investigation the magnetic and structural properties of Gd<sub>2</sub>Pt, Gd<sub>3</sub>Pt", 14th symposium of the society of crystallography, University of Birjand, Iran, (2006).

### **Invited for review of articles as referee In ISI Journals:**

- 1-Semiconductor Science and Technology
- 2- J.Phys.: Condens. Matter
- 3- The Journal of Chemical Physics

**M. Sc. students:**

1. Marziyeh Farrakiyan, Graduated  
**Thesis title:** “Electric field effect on the electronic and magnetic properties in graphene nanodots and nanorings (September 2014).”
2. Marziyeh Yoosefi Sheydani, Graduated  
**Thesis title:** “Spin transport in the presence of electron- phonon interaction in carbon chains (September 2014).”
3. Maryam Leghaei, Graduated  
**Thesis title:** “The effect of Rashba coupling on the electronic and magnetic transport properties of graphene rings and flakes (September 2014).”
4. Mohammad Moghadasin, Graduated  
**Thesis title:** “The effect of Anderson disorder and structural defects on the electronic and magnetic properties of graphene nanostructures (2015).”
5. Ali Sehat, Graduated  
**Thesis title:** “Three-terminal graphene transistor and Rashba spin-orbit interaction (September 2015).”
6. Omid Soltani, Graduated  
**Thesis title:** “Electronic properties of silicene nanostructures: The multi-band tight-binding model (September 2015).”
7. Ali Latif Shushtari, Graduated  
**Thesis title:** “A study of electronic magnetic optical and transport of silicene (February 2017).”
8. Fereshteh Masoudinia, Graduated  
**Thesis title:** “Thermal properties of defected two-dimensional nanostructures: graphene and silicene (February 2017).”
9. Fatemeh Mazhari Mousavi, Graduated  
**Thesis title:** “The electronic and Magnetic properties of silicene nanostructure in the presence of magnetic impurities (February 2018).”
10. Fatemeh Rezaei Neisiani, Graduated  
**Thesis title:** “Electronic and magnetic properties of phosphorene nanostructures (February 2018).”
11. Saeedeh Norouz, Working  
**Thesis title:** “Thermoelectric properties of silicene based on Dirac equation
12. Reyhaneh Abdi, Working

**Ph. D students:**

1. Sara Zamani, Working

**Thesis title:** “Simulation of spin-dependent photocurrent in graphene nanostructures.”

2. Majid Shirdel-Havar, Working

**Thesis title:** “Enhancement of spin-caloritronic properties in carbon nano-junctions.”

3. Fereshte Ildarabadi, Working

4. Mojgan Abbasi, Working
