

**Name: Hoda Ghasemieh**

**Major: Sciences and Engineering of Watershed Management**

**Department: Rangeland and Watershed Management**

**University of Kashan**

**Tel.:** +98-31-55913227, **E-Mail:** h.ghasemieh@kashanu.ac.ir

**Orcid Code:** <http://orcid.org/0000-0001-5208-2819> <https://faculty.kashanu.ac.ir/hghasemieh/fa>

**Address:** Qotb-e-Ravandi Blvd. Kashan. Isfahan

### Educational Information

<b>Grade</b>	<b>Graduated At</b>	<b>Major</b>	<b>University</b>
BSc	2003	Engineering of Natural Resources- Rangeland and Watershed Management	University of Tehran
Title: <a href="#">Investigation of Applied Geology (Varkash Sangan Basin)</a>			
MS.c	2005	Engineering of Natural Resources- Watershed Management	University of Mazandaran
Title: <a href="#">Investigation of Muskingum and Modified Att-Kin Method Efficiency in River Flood Routing (Case Study: Babolroud River)</a>			
Ph.D	2010	Watershed Management Engineering and Management	University of Tehran
Title: <a href="#">Investigation of Muskingum and Modified Att-Kin Method Efficiency in River Flood Routing (Case Study: Babolroud River)</a>			

### Research Interests

Watershed Management and Soil Conservation

- [Hydrology, Hydrogeology, Geohydrology](#)
- [Integrated Water Resources Management](#)
- [Flood Control, River Engineering, River Training](#)
- [Hydroclimate](#)
- [Climate Change & Drought](#)
- [Ecohydrology](#)
- [Simulation and Prediction in Hydrology](#)
- [GIS and RS in Natural Resources](#)
- [Urban Watershed Management](#)

## Awards and Honors

1. **Top Educational Assistant Professor** in Faculty of Natural Resources and Earth Sciences in 2012.
2. **Top Educational Assistant Professor** in Faculty of Natural Resources and Earth Sciences in 2014.
3. **Top Educational Associate Professor** in Faculty of Natural Resources and Earth Sciences in 2017.
4. **Top Thesis Award at Iran,s Top Thesis Festival** (Prof. Hessabi Special Award, Second Round) for thesis of Ph.D Students in Watershed Sciences and Engineering (Mohammad Mirzavand, Elhan Davoodi).

## Publications

### **A. Some Journal Papers**

1. Davoodi, E., Abdollahi, K., & ghasemieh, H. (2024). Investigating the Relationship Between Changes in Leaf Area Index and Soil Moisture Using Remote Sensing and Field Studies: A Case Study of the Beheshtabad Watershed. *Iranian journal of Ecohydrology*, 11(2), 207-222. doi: 10.22059/ije.2024.378735.1831.
2. Mirzavand, M., Ghasemieh, H., Sadatineghad, S. J., & Bagheri, R. (2024). Estimation of Water Lost by Evaporation from Shallow Groundwater Resources and Kashan Playa using Isotopic Data (2H and 18O). *Iranian journal of Ecohydrology*, 11(1), 1-14. doi: 10.22059/ije.2024.377951.1827.
3. Lahoutinasab, S. F., & Ghasemieh, H. (2024). Application of DEMATEL-AHP and SVM in Identifying Flood-Prone Areas (Case Study: Barzak-e-Kashan Basin). *Iranian Journal of Soil and Water Research*, doi: 10.22059/ijswr.2024.377663.669724.

Investigation of Runoff Production Potential Status using US Soil Conservation (SCS) Method in Watershed of Hosseinabad-e-Block-e-Anbarabad. 7th Iranian National Water Resources Management Conference, 25-26 April, Yazd University, Yazd, Iran.

18. H. Ghasemieh, Sh. Hosseinpour, (2018). The Role of Passive Defense in Drought Crisis Management. 1th International Congress on Water, Soil and Environmental Sciences, 2-3 March, Shahid Beheshti University, Tehran, Iran.
19. Z. Hajizadeh, H. Ghasemieh, (2018). A Review on the Introduction of Infiltration Models and Their Application in Various Studies. 1<sup>th</sup> International Congress on Water, Soil and Environmental Sciences, 2-3 March, Shahid Beheshti University, Tehran, Iran.
20. B. Faridiglu, H. Ghasemieh, (2017). Evaluation of Water Chemical Quality at Aq Qala Station Located in Gorganrood River of Golestan Province. 2<sup>nd</sup> National Conference on Water Resources Management in Coastal Plains, 12 October, Sari Agricultural Sciences and Natural Resources University, Sari, Iran.
21. Z. Hajizadeh, E. Omidvar, H. Ghasemieh, (2017). Evaluation of the Effect of Rock Fragment Cover on Runoff in Experimental Areas under Simulation of Rain. 12<sup>th</sup> National Seminar on Watershed Management Sciences and Engineering of Iran, Watershed Management and Environmental Crisis, 10 October, Malayer University and Watershed Management Society of Iran, Malayer, Iran.
22. H. Ghasemieh, H. Jeyhooni, (2017). Climate Change and its Effects on Water Resources. 2nd National Conference on Hydrology in Iran, 11-12 July, Shahrekord University and Iranian Association of Hydrology, Shahrekord, Iran.
23. M. Aghaei, H. Ghasemieh, (2016). An overview of the Water Crisis Event and its Prospects in the Middle East Regional Conflict and its Solution. First National Conference on Passive Defense in Caspian Sea Basin, 14 December, University of Gilan, Rasht, Iran.
24. H. Ghasemieh, O. Asadi-e- Nilvan, T. Mohammadi, M. Selahshour, N. Saghzadeh, (2016). Dimensions and Challenges of Integrated Water Resources Management. 11th National Conference on Watershed Management Sciences and Engineering of Iran, 19-21 April, Ysouj University and Watershed Management Society of Iran, Yasouj, Iran.
25. H. Ghasemieh, N. Saghzadeh, (2015). Natural Disaster Management in the Cities with Emphasis on the Water Crisis. International Conference on Sustainable Development with a Focus on Agriculture, Environment and Tourism, 16-17 September, Tabriz, Iran.
26. M. Moradi Goozalaki, H. Ghasemieh, M. Pajuhesh, (2015). Evaluation of Shahrekord Plain Properties for Flood Spreading and Artificial Recharge. International Conference on Sustainable Development with a Focus on Agriculture, Environment and Tourism, 16-17 September, Tabriz, Iran.
27. M. Darehroudi, H. Ghasemieh, R. Mirzaei, S. Dokhani, (2015). Investigation of Soil Hydrological Groups and Curve Number to Estimate Runoff in Watershed of Hosseinabad-e-Block-e- Anbarabad. The 1<sup>st</sup> Annual Iranian Agriculture Research Conference, 22 July, Kharazmi High Institute of Science & Technology, Shiraz, Iran.
28. M. Darehroudi, H. Ghasemieh, (2015). Methods of Rain Water Harvesting for Use in Green Space. 5-6 May, University of Kashan and Parks & Green Space Organization in Municipality of Kashan, Kashan, Iran.
29. M. Mirzavand, H. Ghasemieh, S.J. Sadatinejad, M. Akbari, A. Vali, (2015). Assessment of Groundwater Quality Capability for Drinking and Agricultural Uses (Case Study: Kashan Aquifer). 1th National Conference on Low Water Green Space, 5-6 May, University of Kashan and Parks & Green Space Organization in Municipality of Kashan, Kashan, Iran.

30. H. Afshari, H. Ghasemieh, (2015). Use of Unconventional Water in Green Space Irrigation. 1th National Conference on Low Water Green Space, 5-6 May, University of Kashan and Parks & Green Space Organization in Municipality of Kashan, Kashan, Iran.
31. M. Mirzavand, H. Ghasemieh, S.J. Sadatinejad, (2015). Cluster Analysis and Cluster Validity Assessment to Regional Groundwater Quality Monitoring System. 1th National Conference on Low Water Green Space, 5-6 May, University of Kashan and Parks & Green Space Organization in Municipality of Kashan, Kashan, Iran.
32. H. Ghasemieh, L. Nazari, S.J. Sadatinejad, S. Arefkhaneh, (2015). Evapotranspiration Estimation of Grass Reference Plant and its Water Requirement Using Cropwat Model in Kashan Plain. The Second National Conference of Engineering & Agriculture Management, Environment and Stable Natural Resources, 11 March, Iran International Conference Center of Shahid Beheshti University, Tehran, Iran.
33. L. Nazari, M. Teimouri, S. Arefkhaneh, H. Ghasemieh, (2014). Accuracy Evaluation of Experimental Methods for Estimating Potential Evapotranspiration in Arid and Desert Regions. 2nd National Conference on Desert Management and Approach on arid areas and Desert, 11-12 November, Semnan University, Semnan, Iran.
34. N. Saghazadeh, A. Fathzadeh, R. Taghizadeh, H. Ghasemieh, A.A Zolfaghari, (2014). Precipitation Determination in Non-Statistics Years Using a Neural Network Model. 2nd National Conference on Desert Management and Approach on Arid Areas and Desert, 11-12 November, Semnan University, Semnan, Iran.
35. M. Ahmadi, H. Ghasemieh, B. Ghermezcheshmeh, (2014). Investigation of Climate Change Effect on Annual Discharge of Quran-Talar Basin. Second National Conference on Water Crisis (Climate Change, Water, Environment), 9-10 September, Shahrekord University, Shahrekord, Iran.
36. M. Ahmadi, H. Ghasemieh, B. Ghermezchemeh, (2014). Investigation of Statistical Downscaling, Seasonally and Annually in SDSM (Case Study: Babolsar Synoptic Station). Second National Conference on Water Crisis (Climate Change, Water, Environment), 9-10 September, Shahrekord University, Shahrekord, Iran.
37. M. Ahmadi, H. Ghasemieh, B. Ghermezcheshmeh, (2014). Evaluation of Statistical Downscaling Methods for Atmosphere- Ocean Circulation Models (AOGCM) for Input of Rainfall-Runoff Models. Second National Conference on Water Crisis (Climate Change, Water, Environment), 9-10 September, Shahrekord University, Shahrekord, Iran.
38. M. Mirzavand, H. Ghasemieh, (2014). Ecohydrology, An Interdisciplinary Approach to Solve Water, Environment and People Issues, National Conference on Water, Human, Earth, 28 August, Isfahan, Iran.
39. M. Taheri, H. Ghasemieh, M.T. Dastoorani, (2014). Flood Analysis of Upstream Urban Basins (Case Study: Torqabeh and Hesar- Dehbar Basins). National Conference on Water, Human, Earth, 28 August, Isfahan. Iran.
40. N. Ahmadaghaei, H. Ghasemieh, H. Ghorbani, (2014). Homogeneous Solutions of Hydrometric Stations for Regional Flood Frequency Analysis. National Conference on Water, Human, Earth, 28 August, Isfahan. Iran.

41. H. Ghasemieh, S. Arefkhaneh, L. Nazari, (2014). Investigation of Ecotourism Potentials using GIS and Land Use Planning (Case Study: Gholam Sombar Basin). Iranian Conference of Geographical Sciences, 20 May, University of Tehran, Tehran. Iran.
42. N. Marzbani, M. Ghorbani, H. Ghasemieh, J. Attarha, (2014). Groundwater Level Changes in the Northern Plains of the Hamadan Province (2001-2010). The 4th International Conference on Environmental Challenges and Dendrochronology, 11-15 May, Sari Agricultural and Natural Resources University, Sari, Iran.
43. R. Imani, A.A. Imani, H. Ghasemieh, A. Alebouali, (2014). Evaluation of Water Quality and Hydrochemical Type in Balikhluchay River for Drinking and Agriculture using Graphical Methods. The 1 st National Conference on Environmental Pollutions, 27 April, Ardebil, Iran.
44. L. Nazari, S. Arefkhaneh, H. Ghasemieh, S.J. Sadatinejad, M. Abdollahi, (2014). 1st National Conference on Agriculture & Environment Sciences, 6 March, Ardabil, Iran.
45. M. Pajuhanmanesh, H. Ghasemieh, (2014). Investigation of Drought Process using Groundwater Resource Index (GRI) in Kashan Plain. First National Conference on Geography and Environmental Sustainability, 5 March, Razi University, Kermanshah, Iran.
46. Kh. Kianimehr, A. Vali, H. Ghasemieh, (2014). Efficiency Evaluation of Neuro Fuzzy (CANFIS) and Stepwise Regression Methods in Modeling Rainfall-Runoff of Navroud Basin. 5<sup>th</sup> Iranian National Conference on Water Resources Management, 18-19 February, Shahid Beheshti University, Tehran, Iran.
47. M. Soleimani, H. Ghasemieh, S.J. Sadatinejad, M. Mirzavand, (2014). Investigation of Hydrogeological Drought Effect on Groundwater Fluctuations using PSI Index. 5<sup>th</sup> Iranian National Conference on Water Resources Management, 18-19 February, Shahid Beheshti University, Tehran, Iran.
48. R. Imani, A. Alebouali, H. Ghasemieh, (2014). Estimation of Runoff Height and Peak Discharge by Rational Method and Curve Number (Case Study: Ghale-bani Basin, Kohgiluyeh and Boyer-Ahmad Province). 5<sup>th</sup> Iranian National Conference on Water Resources Management, 18-19 February, Shahid Beheshti University, Tehran, Iran.
49. Fazeli Farsani, H. Ghasemieh, (2013). Investigation of the Accuracy of Rainfall-Runoff Modeling in Estimating Extreme Events (Case Study: Beheshtabad SubBasin). National Conference on Flood Management, 13-14 May, Research Institute of Natural Disasters, Tehran, Iran.
50. H. Ghasemieh, M. Ahamai, F. Ebrahimi Azarkharan, (2013). Use of Purified Water Resources for Different Water Uses for Sustainable Development (Case Study: Factory of Textile and Knitting Industries in West of Tehran). The 1st National Conference on Solutions to Access Sustainable Development in Agriculture, Natural Resources and the Environment, 10 March, Passive Defense General Administration (Ministry of Interior), Research Institute of Natural Disasters, Amu Institute, Tehran, Iran.
- A. Birjandi, H. Ghasemieh, (2012). Ecotourism Potential in Iranian Desert Areas, Case Study: Iran Africa (Turan Protected Area). 03rd National Conference on Combating Desertification and Sustainable Development of Iran Desert Wetlands, 15-16 September, Islamic Azad University (Arak Branch), Arak, Iran.
- B. Tavakkoli Fard, H. Ghasemieh, A. Nazari Samani, N. Mashhadi, (2012). Prioritizing the Fight against Wind Erosion in Different Forms of Sand Dunes (Case Study: Kashan Erg). 03rd National

Survey of Stratigraphic Columns of Arid Regions, Case Study: Birjand Region. 03rd National Conference on Combating Desertification and Sustainable Development of Iran Desert Wetlands, 15-16 September, Islamic Azad University (Arak Branch), Arak, Iran.
52. M. Mirzavand, S. Farazmand, H. Ghasemieh, Y. Yazadani Moghaddam, (2012). Study of Vegetation in order to Improve Performance on Pastures (Case Study: Khaiez Catchment). 01st National Desert Conference, 16-17 June, International Desert Research Center, University of Tehran, Tehran, Iran.
53. M. Mirzavand, A. Mohammadian Bebahani, H. Ghasemieh, A. Nazari Samani, Y. Yazdani Moghadam, (2012). Investigating the Usability of Geological Formation Properties Prioritizing Watershed Management Plans (Case Study: Chamran Basin). 01st National Desert Conference, 16-17 June, International Desert Research Center, University of Tehran, Tehran, Iran.
54. M. Mirzavand, H. Ghasemieh, (2012). Investigation of Types of Erosion, Geomorphological Facies and Hydrodynamic Properties of Geological Formations (Case study: Chehelkonar-e-Behbahan Sub-Basin). 01st National Desert Conference, 16-17 June, International Desert Research Center, University of Tehran, Tehran, Iran.
55. K. Bekhradipour, H. Ghasemieh, (2012). Use of Unconventional Waters in Water Crisis Management (Case Study: Kashan Plain). Conference of Water Crisis in Kashan Plain, 19 January, University of Kashan, Kashan, Iran.
56. L. Nazri, S.K. Bakhshayeshmanesh, H. Ghasemieh, (2012). Efficiency Evaluation of Flood Spreading System. Conference of Water Crisis in Kashan Plain, 19 January, University of Kashan, Kashan, Iran.
57. Kh. Kianimehr, H. Ghasemieh, (2012). Application of Satellite Imagery and RS Technology in Predicting the Flood Trend. Conference of Water Crisis in Kashan Plain, 19 January, University of Kashan, Kashan, Iran.
58. M. Mirzavand, H. Ghasemieh, (2011). Investigation of Susceptibility to Erosion and Joint System in Geological Formation in order to Use in Watershed Plans (Case Study: Chelkonar Behbahan Sub-Catchment). 15th Symposium of Geological Society of Iran, 14-15 December, Tarbiat Moalem University, Tehran, Iran.
- A. Birjandi, H. Ghasemieh, S.J. Sadatinejad, S.A. Hashemi, (2011). Investigation of Dust Particle Effects of Cement Factory in Arid Regions (Case Study: Biarjmand Cement Factory). 2nd National Conference on Combating Desertification and Sustainable Development of Iran Desert Wetlands (Relying on Meighan Desert Wetland), 14-15 September, Islamic Azad University (Arak Branch), Arak, Iran.
59. Fazeli Farsani, H. Ghasemieh, H. Esmaceli, A. Fazeli Farsani, (2014). Investigation of Drought Temporal Changes Using Standardized Precipitation Index (Case Study: Behesht-abad Basin). First National Conference on Agriculture and Sustainable Natural Resources, 9 February, Tehran, Iran.

## Performed Projects:

<b>Research Project Manager</b>			
<b>Title of Project</b>	<b>Place of Work</b>	<b>Date</b>	
		<b>From</b>	<b>To</b>
Identifying of the Effective Wells for Groundwater Depth Determination in Urmia Plain (From 2015 January 5 to 2015 September)	University of Kashan	24/01/2015	07/12/2015
<b>Research Project Partner</b>			
<b>Title of Project</b>	<b>Place of Work</b>	<b>Date</b>	
		<b>From</b>	<b>To</b>
Morphology and Granulometry Investigation of Active Sand Dunes of Kashan Erg in relation to Wind Regime	International Desert Research Center	10/12/2011	09/05/2013
The Investigation of Drought Effects on the Fluctuations of Supercritical Plains' Resources in Isfahan Province for Optimal Management of Water Resources Exploitation	University of Kashan	17/03/2013	18/09/2014
Environmental Impact Assessment of the National Observatory of Iran	University of Kashan	04/01/2017	05/03/2017
Studying of the Latest Situation and Quantitative and Qualitative Changes in Kashan Plain Aquifer and Determining the Perspective of Drinking and Sanitary Water and Providing Appropriate Solutions	University of Kashan	15/10/2018	29/07/2020
Location studies of the best point to drill two water wells in the closest place to Kashan Special Economic Zone	University of Kashan	21/04/2021	17/10/2022

## These under Supervision

### **A.1. Master of Science (MSc)**

1. **Mehdi Mahroo**. (2024). Investigation of Flooding Potential of Sub-basins and Determination of Flood-prone Areas (Case Study: Part of Kashan Basin).
2. **Faezeh Lahootinasab**, (2023). Application of Maximum Entropy, Support Vector Machine and DEMATEL-AHP Models in Identifying Flood-Prone Areas (Case Study: Barzak Basin).
3. **Maryam Ahamadi Sarmouri**. (2023). Comparison of Awareness and Participation of Local Stakeholders from Natural Resources Projects in Two Arias of Kashan and Shahrekord.
4. **Mohsen Moeinzadeh**, (2019). Evaluation of Climate Change Effects on Meteorological Drought under RCP Scenarios (Case Study: Selected Stations in Isfahan Province).
5. **Roya Ahmadi**, (2019). Evaluating Temporal and Spatial Variations of Drought for Identification of Groundwater Potential Zone (Case Study: Qom-Kahak Plain).
6. **Mohammad Amin Khosravi**, (2019). Evaluation the Impact of Land Use Changes on Water Balance Components in Farsan Basin.
7. **Farzaneh Nozarian**, (2018). Spatial Variation of Intrinsic and Fractal Properties of Soil in Kashan Plain.
8. **Shadab Hoseinpour**, (2017). Evaluation Loss of Runoff, Sediment and Soil Nutrients under Different Conditions of Rainfall Simulation.
9. **Zeinab Hajizadeh**, (2017). Investigation the Effects of Differents Soil Cover on Runoff Hydraulic Characteristics and Sediment Generation under Simulated Rainfall Conditions.
10. **Hadise Khorshidi**, (2016). Siahrood River Water Quality Parameters Prediction using Artificial Network.
11. **Zahra Pourzarin**, (2016). River Flow Simulation using Intelligent Models and Time Series (Case Study: Kashkan Basin).
12. **Zahra Heshmatian**, (2016). Evaluating the Impact of Different Complexity Levels in the Performance of Hydrological Models (Case Study: Hanifaghan Basin).
13. **Behnam Aram**, (2015). Investigating the Effects of Climates Phenomenon on Quantitative Fluctuations (Case Study: Ardestan Plain).
14. **Moslem Moradi Goozalaki**, (2015). Positioning of Suitable Areas for Flood Spreading using AHP, FAHP and GCA Methods in Shahrekord Plain.
15. **Mahmoud Darehroudi**, (2015). Suitable Site Selection for Rainwater Harvesting using GIS and Decision Support Systems (Case Study: Hosseinabad-e-Block-e- Anbarabad Basin).
16. **Rasool Imani**, (2014). Hydrological Simulation Using WetSpa and Intelligent Neural Models (Case Study: Balikhluhay Watershed, Ardabil Province).
17. **Seyed Hadi Sadeghi**, (2014). Hydrological Modeling Rainfall-Runoff Using IHACRES, WetSpa and HEC-HMS and Comparing their Results with Each Other (Case Study: Navrud Basin).
18. **Mehdi Ahmadi**, (2014). Analyzing Impact of Climate Change on Annual Discharge in Qorantalar Watershed.

19. **Nima Ahmadaghaei**, (2014). Regional Flood Frequency Analysis using Linear Movements and Wavelet Transform (Case Study: Tehran Province).
20. **Mostafa Taheri Heravi**, (2014). Investigating the Effects of Landuse Changes and Urban Development on Hydrological Response of Watersheds (Case study: Torghabeh and Dehbar Watersheds).
21. **Mohammad Pazhouhanmanesh**, (2014). Investigation of Drought Effects on Groundwater Fluctuations Using Modflow Model (Case Study: Kashan Plain).
22. **Alireza Karimi Zafarabadi**, (2014). Evaluation of Flood Routing Methods in Kashkan River.
23. **Kobra Bakhshayeshmanesh**, (2013). Evaluating the Relationship between Effective Teleconnection Patterns with Precipitation and SPI (Case Study: Central Plateau Basin of Iran).
24. **Leila Nazari**, (2013). Estimating Evapotranspiration using Lysimeter and its Comparison with Simulated Data in Artificial Neural Network (Case Study: Kashan).
25. **Asghar Tavakkolifard**, (2012). Investigation of Sand Dunes Morphology and Its Relation to Wind Regime (Case Study: Kashan Erg).
26. **Mohammad Mirzavand**, (2012). Qualitative and Quantitative Simulation of Groundwater in Kashan Plain Using Artificial Neural Network.
27. **Mahin Nazari**, (2012). Rainfall- Runoff Modeling Using Artificial Neural Network (Case Study: Babolrud).
28. **Abolfazl Birjandi**, (2012). Positioning of Underground Dams in Biarjomand Basin.

## **A.2. Philosophical Doctrine (PhD)**

1. **Farnoosh Saniesles**, (2024). Efficiency Investigation of PDIR Precipitation Satellite Products on the Performance of Hydrological Models and Climate Change Effects.
2. **Zarin Aminfar**, (2022). Flood Prioritization in Basins using Morphometric Characteristics (Case Study: Boyerahmad).
3. **Narges Saghazadeh**, (2022). Determine the Factors Affecting Subsidence with an Emphasis on Groundwater (Case Study: Kashan Plain).
4. **Seyyed Mohammadreza Mirhosseini Tabaei Zavareh**, (2020). Evaluating the Effect of Climate Change and Land Use on Groundwater Recharge (Case Study: Golpayegan Basin).
5. **Ali Seif**, (2020). Evaluating the Impacts of Climate and Land Use Changes on River Flow in Seilakhor Basin, Lorestan Province.
6. **Maryam Rezaei**, (2020). Estimation of Actual Evapotranspiration using METRIC and Simplified METRIC models based on the Soil Moisture Criterion.
7. **Zahra Nazeri**, (2019). Design of Groundwater Monitoring Network and Determine of Recharge Potential Area using Entropy Theory in Jiroft Plain.
9. **Navid Dehghani**, (2019). Frequency Analysis of Hydrological Drought of BazoftSamsami Basin under Climate Change Scenarios.
10. **Elham Davoodi**, (2018). Evaluation of relationship between Leaf Area Index and spatial and temporal variability of soil moisture (Case study: Behesht-Abad watershed).
11. **Mohammad Mirzavand**, (2018). Determine the Origin and Mechanism of Groundwater Salination in Kashan Plain using Isotopic and Hydro-geochemical Methods (Dr Hoda Ghasemieh, Dr Seyyed Javad Sadatinejad).

12. **Mahdi Soleimani Motlagh, (2017)**. Evaluation of Groundwater Budget with Emphasis on the Separation of Deficit Caused by Drought and Overexploitation of Aqifer (Case Study: Alashtar Plain).

### **B. ADVISOR:**

1. **Zahra Feizi**, 2015. FAHP Application for Flood Spreading (Case Study: Souther Part of Kashan Plain).
2. **Narges Saghzadeh**, 2014. Rain Gauge Design in Central Part of Iran using Geostatistical and Artificial Intelligent.
3. **Khadije Kiani Mehr**, 2013. Nero-fuzzy Modeling of Rainfall & Runoff time series in Navrud.
4. **Parvin Bakhshian**, 2013. Fractal Analysis on Watershed Hydro Geomorphology Modeling.
5. **Yaghub Yazdani**, 2012. Suitable Areas Selection of Flood Spreading with AHP Approach and GIS in Kashan Plain.
6. **Mohammad Reza Shekari**, 2011. Application of Artificial Network for Aeolian Suspended Modeling (Case Study: Darab Plain).

### **Invited Reviewer For Journals**

Environmental Sciences

- [Journal of Watershed Management Research](#)
- JOURNAL OF RANGELAND AND WATERSHED MANAGEMENT
- [Quarterly Journal of Environmental Erosion Research](#)
- Journal of Irrigation and Water Engineering
- [Desert Ecosystem Engineering Journal](#)
- Scientific Journals Management System
- [Iranian Journal of ECOHYDROLOGY](#)
- ECOPERSIA
- [Energy Engineering & Management](#)

- [Environmental Science and Pollution Research](#)

## Courses Taught in Different Academic Levels

### **A. Bachelors (B.E) Course**

- General Hydrology, University of Kashan
- Applied Hydrology, University of Kashan
- General Hydraulic, University of Kashan
- Water and Soil and Plant Relationship, University of Kashan
- Cartography, University of Kashan
- Cost Estimation of Watershed Management Project, University of Kashan
- Statistics, University of Kashan

### **B. Master (M.S.) Course**

- Water Resource Management, University of Kashan
- Flood Control, University of Kashan
- River Engineering, University of Kashan
- Short Dams, University of Kashan
- Snow and Avalanche, University of Kashan
- Watershed Management, University of Kashan
- Economic and Social Issues of Watersheds, University of Kashan
- Geographic Information Systems (GIS), University of Kashan
- Water Resources Management in Desert Areas, University of Kashan
- Economic and Social Development of Desert Areas, University of Kashan
- Research Method, University of Kashan

### **C. Doctoral (Ph.D.) Course**

- Simulation in Watershed Management, University of Kashan
- Advanced hydrogeology, University of Kashan
- Advanced Hydrology, University of Kashan

## Computer Skills

- **General software:** M.S.-Office package (Word, Excel, Powerpoint, ...)
- **Geographic Information Systems:** ARC GIS
- **Surveying & mapping:** GS+, Surfer
- **Hydrology:** HEC-HMS, WetSpa, SMADA, HYFA, DIP (Drought Indices Package), DIC, DrinC
- **Statistics:** SPSS, MINITAB, Easy Fit, XLSTAT
- **Climate Change:** LARS-WG, SDSM

## Language Skills

- Persian: Native
- English: Good (English license, ILI, Karaj, Iran)
